The Middi OTR service vehicle is 15' long with a flat bed or as a haul body with 41" tall sides. Built for Fleet Service and OTR work, this heavy-duty unit is available with choice of a 2000 Crane with optional TP108P Tire Positioner or an 8716 Crane that stows in a folded position behind the cab. Many of the features from this unit are found on the largest OTR service units. Aluminum and Steel construction allows us to reduce weight without sacrificing strength. Your customers demand the best, so should you.

H65 air compressor with PTO/hydraulic drive. 60 CFM with a 23 or 38 gal. tank.  
or  
H140 air compressor with PTO/hydraulic drive. 75 CFM with a 23 or 38 gal. tank.

Hose reels commonly placed on left side above the crane controls. 1/2" X 50' and 3/8" X 50' heavy duty reels with hose end guard.

Optional airing station for easy tire inflation.
